How to install NVM (Node Version Manager) on Debian

By alexandrefreire | 26 de janeiro de 2025

Version Manager

To install NVM (Node Version Manager) on Debian, follow these steps:

Step 1: Update and Install Required Packages

Run the following commands to ensure your system is up to date and has essential tools installed:

```
sudo apt update  
sudo apt install curl git -y
```

Step 2: Download and Install NVM

Run the following command to download and install NVM:

```
curl -o- https://raw.githubusercontent.com/nvm-  
sh/nvm/v0.39.5/install.sh | bash
```

(Replace `v0.39.5` with the latest version from the [official NVM repository](#) if needed.)

Step 3: Load NVM

After installation, load NVM into your shell session:

```
export NVM_DIR="$HOME/.nvm"  
[ -s "$NVM_DIR/nvm.sh" ] && \. "$NVM_DIR/nvm.sh"  
[ -s "$NVM_DIR/bash_completion" ] && \. "$NVM_DIR/bash_completion"
```

To ensure this persists across sessions, add these lines to your shell configuration file:

- For **bash**

```
echo 'export NVM_DIR="$HOME/.nvm"' >> ~/.bashrc echo '[ -s  
"$NVM_DIR/nvm.sh" ] && \. "$NVM_DIR/nvm.sh"' >> ~/.bashrc echo '[ -s  
"$NVM_DIR/bash_completion" ] && \. "$NVM_DIR/bash_completion"' >>  
~/.bashrc source ~/.bashrc
```

- For **zsh**

```
echo 'export NVM_DIR="$HOME/.nvm"' >> ~/.zshrc echo '[ -s  
"$NVM_DIR/nvm.sh" ] && \. "$NVM_DIR/nvm.sh"' >> ~/.zshrc echo '[ -s  
"$NVM_DIR/bash_completion" ] && \. "$NVM_DIR/bash_completion"' >>  
~/.zshrc source ~/.zshrc
```

Step 4: Verify Installation

Check if NVM is installed correctly:

```
nvm --version
```

Step 5: Install and Use Node.js

You can now install Node.js using NVM. For example, to install the latest LTS version:

```
nvm install --lts  
nvm use --lts
```

Verify the installed version of Node.js:

```
node --version  
npm --version
```

You now have NVM installed on your Debian system, ready to manage Node.js versions! 🎉

A dark blue banner advertisement for Cloudways. On the left is the Cloudways logo (a cloud with three horizontal lines) and the word "CLOUDWAYS". In the center is the WordPress logo (a white 'W' in a circle). To the right of the logo, the text reads "LOAD WORDPRESS SITES IN AS FAST AS 37ms!". On the far right, there is a red button with the text "GET STARTED" and below it, in smaller white text, "No Credit Card Required".
